EDUCATION

- **B.Tech in Artificial Intelligence & Data Science**

  VIDYA JYOTHI INSTITUTE OF TECHNOLOGY, HYDERABAD

  CGPA : 8.33

  2023-Present

- **Senior Secondary Education (SSC)**

  MS Junior College

  Percentage : 85.9%

  2023

- **Secondary Education (SSC)**

  Sri Gurudatta High School

  Percentage : 100%

  2021

TECHNICAL SKILLS

- **Programming**: Python, SQL
- **Data Analysis**: Pandas, NumPy, EDA, Statistics
- **Data Visualization**: Power BI, Tableau, Matplotlib
- **Databases**: MySQL, SQL Server
- **Microsoft Excel**: Pivot Tables, VLOOKUP/XLOOKUP, Data Cleaning

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
- Hindi (Intermediate)
- Telugu (Basic)

PROFILE

Data Analytics enthusiast with hands-on experience in Python, SQL, Excel, Power BI, and Tableau. Skilled in data cleaning, exploratory data analysis, statistical analysis, and dashboard development, with experience working on real-world datasets to uncover actionable insights. Seeking an entry-level Data Analyst opportunity to apply analytical and problem-solving skills in a business environment.

PROJECTS

Loan Default & Financial Risk Analysis | Power BI

- Built an interactive Power BI dashboard to analyze loan amounts, default rates, and applicant financial profiles.
- Created DAX measures and categories for age groups, income brackets, and credit score bins to support detailed analysis.
- Analyzed loan and default trends across employment type, credit score, income, age, education, and loan purpose.

Apple Retail Analysis | Power BI

- Analyzed 1M+ retail sales records to uncover trends in product performance, sales volume, and store-level performance.
- Cleaned, transformed, and explored sales data using Python, Pandas, and SQL to identify key business insights and patterns.
- Designed an interactive Power BI dashboard to visualize sales trends and KPIs, enabling clear and data-driven business analysis.

Demand & Supply Analysis | Power BI

- Analyzed demand and supply data to identify market trends, demand patterns, and supply gaps across different categories.
- Cleaned and transformed datasets using Python and Pandas, applying exploratory analysis to uncover key business insights.
- Developed an interactive Power BI dashboard with DAX measures to track demand, supply, and key performance indicators for data-driven decision-making.

Student Depression Analysis | Tableau

- Developed an interactive Tableau dashboard analyzing academic pressure, financial stress, study habits, sleep duration, and study satisfaction among students.
- Created visualizations to identify patterns and relationships between lifestyle/academic factors and student depression.
- Used data visualization to present insights in a clear and business-friendly format.

CERTIFICATIONS

- **Google Data Analytics Professional Certificate** - Coursera
- **Complete Data Analyst Bootcamp From Basics To Advanced** - Udemy
- **Programming Essentials in Python** - Cisco Networking Academy
